

Cell phone usage should not be allowed on commercial airplanes!  
Disregarding the safety issue which is a definite concern, can you  
imagine how irritating it would be sitting next to a person that  
was screaming into his cell phone the whole trip??!! We see it in  
elevators, we see it in restaurants.....we don't need the  
distraction on a small tightly packed airplane!! Tempers flare  
now.....we don't need any more irritating factors.
